

TABLET PC PACKAGE – Class of 2014

Fujitsu Lifebook T900 with Windows 7 Professional

http://ts.fujitsu.com/products/mobile/tablet_pcs/lifebook_t900.html (web link)

The LIFEBOOK T900 is an ultra versatile lightweight convertible notebook for the professional user. Its bi-directional, rotatable, wide-view, high-bright LED display is a pleasure to use. With the LIFEBOOK T900 you have the choice: work with your fingers (incl. multiple touch) or with the patented multifunctional pen as well as the built in touchpad. Berliner Glass ensures highest reliability. The ambient light sensor, a light-sensitive sensor, automatically adjusts the brightness of the LED display according to the ambient light conditions of the current user-environment. This helps you to save battery power and thus enjoy a longer battery runtime. Offering Wi-Fi certified WLAN, Bluetooth and modem, connecting anywhere is a breeze.

Base Unit – Fujitsu Lifebook T900 includes:

Core i5-520m (2.40ghz) processor
4GB (2GB x 2) memory
160GB SATA HD (5400rpm)
Intel Centrino Advanced-N 6200(2x2) wireless adapter
Bluetooth capability
13.3 WXGA Widescreen, dual digitizer
Dual DVD Writer / CD-ROM
Web Camera 2.0 Mpx
6 Cell Main Battery

Additional items included in the MSMA Package:

Secondary Modular Bay battery - when used in conjunction with main battery provides 7+ hours of battery per day
Free Replacement of Main Battery in 2 years
Onsite Service and Repair by certified Fujitsu technicians
Loaner machines available to all students awaiting repairs
4 Year extended Warranty
4 Year Quality Care Coverage (covers all non-warranty repairs such as broken screen, etc.)
4 Year Anti-virus subscriptions
MS Office 2007 Professional software suite
MS OneNote 2007 software
Various other school software (a list will be provided on request)

Tablet Sleeves and Cases

All students must carry their Tablet in either a sleeve or a case. Both will help protect the tablet in the case of a fall or other “accident” – and believe me, we have seen plenty. Traditional laptop briefcases usually provide better support and protection than the thinner laptop sleeves. However, some girls do not like to carry both a book bag and a tablet briefcase. They prefer a laptop sleeve which they either put inside their book bag or carry separately in their hands.

Cases and sleeves are sold by either screen size or laptop size. Your tablet size is below:

13.3 inch screen size

Physical Measurements – 12.6 inches length by 9.6 inches wide by 1.5 inches high

The Tablet should fit snugly in either the sleeve or the case. Do not purchase a size larger than you need. Cases and sleeves can be purchased at many locations from Staples, to Target to Vera Bradley and almost everywhere in between! They also range in price from \$15.00 to over \$100.00 I have included a few links to some online stores below, but you are free to purchase a case or sleeve from wherever you want to. Some sites allow you to input the specific laptop model and then they will display all bags that fit that model. Your model is:

Fujitsu Tablet PC - LIFEBOOK T900, CORE i5-520M (2.40GHz)

When purchasing a case or sleeve, evaluate the amount of protection it will provide (substantive padding, stiff corners, etc. are good) as well as the quality of the zipper, as the zippers are zipped and unzipped about 10 times a day. Keep in mind that most girls still carry a book bag / backpack too, and some also carry sports bags and equipment. Cases and sleeves take a lot of abuse, so be sure to purchase a sturdy one.

If you have any questions, please email Mrs. Parisi at cparisi@mountsaintmary.org
